- 3-way Full Port Direct Mount LF Brass
- Pressure rating 400 WOG - 100 WSP
- Temperature range: -4°F to 366°F
- Blow out proof stem, T.E.A. coated LF brass ball
- P.T.F.E. seats with O-ring backing for low operating torque
- P.T.F.E. seats and double O-ring stem packing
- 100% electronically tested in the open and closed position at 80 psi
- Ideally suited for drinking water
- Four seat design for sealing between pressurized ports

The CRBLF356R series is a lead free, forged brass, four seated, L ported or T ported diverter ball valve, that can also be used as a shut-off. The four seats allow the user to use any port as an entry and take continuous flow to another direction when needed. Standard ASME/ANSI B1.20.1 thread depths.

Due to O-ring back seating and O-ring stem seals, both valve series feature extremely low torque for automation. These valves are ISO 5211 direct mounting coupled with solid square stem engagement.
